Dear Mr. Mayor:

A question often asked by the White folk of the cities of the West and the cities of the North. How come the Southern negroes don't riot in Atlanta, Birmingham, Dallas? How come the Southern negroes riot in Chicago, Los Angeles, New York?

It would appear that the Southern negroes have answered that question themselves.

The cry "white devil", and "black power" suggest that the Southern negro is militant in Atlanta, as well as, Chicago.

The new Carpet baggers, outside the Dixie area, appear to be the Catholic Bishops of America and the Protestant Bishops of America.

Cody of Chicago - Cushing of Boston, and their counterpart of the Protestant Bishops of America, are promising to invest their billions of dollars, in homes - housing - for the Southern negroes that, have fled that vast negro slave labor camp called-Dixie.

Mr. Mayor, this letter is not a letter from a Tom Jankie to a Rebel. This letter is written in a friendly manner.

The revolt of the Southern negro is upon all the non-negro citizenry.

II

The African tribal chieftains sold their own people into slavery to the renegade white negro slave traders.

All the descendants of the ship owners of the New England States and New York State who engaged in the negro slave trade are today living top-shelf off unearned income ^{deriving} from that nefarious trade.

All the people in Dixie (and outside that area) who exploited negro slave labor are living top-shelf.

Now the non-negro citizenry are left holding the bag.

This writer has no suggestion to offer to help solve this great issue.

Negro slave trading is a great Crime against society engaged in by negro and non-negro alike.

Perhaps the only solution lies in the basic recognition of this fact by the negroes and the non-negroes alike.

Perhaps then, and only then, can progress be made in an attempt to solve this great issue.

Very truly yours,
Stanley J. McFrye
