Mayor Ivan Allen
Mayor of Atlanta
City Hall
Atlanta, Ga.

Dear Mr. Allen; The recent nomination of Hon Lester Maddox by the Democrats of Georgia was the greatest victory the State of Georgia had had in many a day. It means that this Great State of Georgia will again be controlled by the great Conservative thinking that so long has in the past made this State as well as the Old Democratic Party so great.

I do not think for one moment that Mr. Maddox will have any trouble being elected. I hope that the good people of Georgia will now get solidly behind this man and win a great victory.

It was only a short few weeks ago we saw all over America by way of TV the horrible riots in your City. We had only few days prior to that seen the suspension of three officers because they tried to direct traffic at a ball game.

The Liberals in this country have tried to take away the fundamental rights that have always been American to hire and fire and to associate with who one pleases regardless of whether others did not like it. The passage of the 1964 Civil Rights act required this man who had spent much of his time and energy in the building up of his business to serve persons he did not desire to serve. It is disgusting to me to see all this talk of integration which has and never will work.

My Father who practiced law here for 58 years was raised in Laurens County, S.C. with Bishop Fuller Sr. who was a colored Bishop in Atlanta died few years ago. He established churches from Ohio

to Florida. He always when here in Spartanburg visted our office .He became a very wealthy man and probably the wealthiest there in the 1950's of all colored men. When sued in late 1950's for a million dollars he called my Father and requested we represent him. He was high y respected by the white people but at no time did he advocate the mixing of the races.

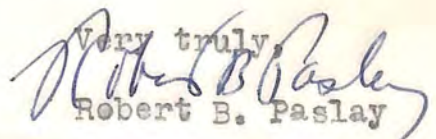

I was related to several of the Governors of the State of Georgia and Glyn County Georgia is named for my family of Glyns. Professor Lawson one of the founders of U. of Georgia was related to us as was Governors Irwin and Townes.

There are those in the Liberal camp who claim to be moderates on the race issue by there is no such thing as a moderate on the race issue you are either for the mixing of the races or against it. I happen to be against the mixing as is the case of most Southerners and it now appears most everyone after seeing what it brings. I want no part of black power.

We see throughout the South this year the defeat of Senator Bass of Tenn., Senator Russell of S.C.; the defeat of Ellis Arnall of Georgia. Evrywhere we note the trend back to the great Conservative principles.

I for one am thankful that the Great people of your State of Georgia finally woke up to the Conservative ideals. Mr. Maddox need not fear the people are for him.

RBP/rp

Very truly
