Dear Mr. Allen:-

I'm not a resident of Atlanta, but since the State might be called on at some future time for help in regards to conditions that might exist in Atlanta, I feel that private citizens should not be used instead of authorized policeman.

To me this looks like taking away the legal law from our citizen and giving it to a clerk that does not believe in the American way of living.

I do not have all the facts but if what I do have is correct I would advise the Governor of the State of Ga not to help these places with Nat. Guard in case of trouble unless local policeman are authorized to do their best first.

The reasons for the trouble in all the cities speak for themselves and I think every American knows what should be done.

Walter Maddox
