490 Peachtree Street N. E.
Atlanta, Georgia 30308

Dear Doctor Fisher:

Thank you very much for your letter of June 28th.

The Atlanta Traffic and Safety Council determined that during special events at the stadium, the curb lane should be reserved for buses and taxis because of the large number of people that these vehicles transport. The effectiveness of the system depends on the enforcement of the regulations, and the police department has the responsibility. The indications are that the over-all results is very good, for the simple reason that a larger number of people move into and out of the Atlanta stadium area as quick, or quicker, than any other stadium in the nation.

I am in sympathy with your problem, but I am sure that you realize that for a system to work successfully, private vehicles cannot be permitted to use the curb lane.

I have forwarded your letter on to Mr. Ed. Hughes, the Director of the Atlanta Traffic and Safety Council, with a request that they take another look at this operation and see if they have any further suggestions.

Sincerely yours,

HTJ:gp
