

December 31, 1962

To The Mayor and His Associates,
The White Citizens of West End,
The Colored Realty Companies
Block Busters

We the property owners of the Southwest Area (Ben Hill) wish to know why there is so called Block Bustering going on out here. There is no need for such.

There are hundreds of acres of land in Ben Hill just waiting to be developed. This property is owned by Colored People. It is a shame the so called Block Busters are overlooking this opportunity. It appears to us that the loaning institutions would supply the necessary funds to develop this land.

This land is located in area four (4) consisting of Old Fairburn Rd. and Union Road section. Area five (5) consisting of Mt. Oliver, Niskey Lake Road, County Line Road, Poplar Spring and Cascade Road section. These are only a few of the places out here.

There is no need of disturbing the White Citizens out here, it doesn't make sense. Much of the property in this area has been owned by Colored People for many years. We did not start running when the White People moved into this area.

Respectfully,

The Colored Citizens and Land Owners
in the Southeast Section
