

July 20, 1967

Mrs. George C. Curtis  
530 Pinedale Drive  
Smyrna, Georgia 30080

Dear Mrs. Curtis:

Mayor Allen has directed your letter of July 17 to the Civic Design Commission, because our Commission is the agency which initiated interest in the underground street area.

Mr. Franklin Garrett of the Coca Cola Company is a member of the Commission and chairs the committee on the underground city. I have just talked with him by phone and he has expressed his willingness to guide your group through this area if you can work out a time which is mutually acceptable. The tour will last approximately 30 minutes. He offered this service because there is no formal guide service currently available. You may contact him at the Coca Cola Company here in Atlanta either by phone or by mail. Mr. Garrett is especially qualified to do this because he is the leading historian in matters dealing with Atlanta. In addition, he is a charming gentleman. I do not think that it would be a burden in any sense to bring your sister Cadette Troop, as he has expressed his willingness to accompany either the small number or the large number you suggested. I hope that you can work out arrangements that will be satisfactory to everyone concerned.

On behalf of the Civic Design Commission, I send you and your troop the very best of good wishes for a rich and pleasant summer season.

Cordially yours,

*JSP* (by: *AB*)

Joseph S. Perrin, Chairman  
ATLANTA CIVIC DESIGN COMMISSION
