Dear Mayor Allen,

We have just returned from vacation and understand there is a proposal for leaving trash in one's yard rather than the street. While I agree trash in the street is a hazard, I would certainly prefer that than unsightly Atlanta yards. We have spent the past year in a new home working to get and maintain a nice stand of grass. Since we are at the bottom of a hill, not only would we have our trash piled up, but everyone else's would either blow or wash from their yards to ours. When it is in the street, it washes down to the storm sewer.

It is our fervent hope that this ordinance will not be passed.

Very truly yours,  
Mrs. J. M. Aiken, Jr.

P.S. It was disappointing to us, that you found it necessary to take your stand in Washington
