

Dear Mr. Allen:-

You are critical of the negro people for the disturbance they sometimes create.

Why are you not seeing to it that they are treated with justice? Why do you never object when a white man kills an innocent negro and he is never punished by your courts? Why do you allow them treated as inferiors because their skins are darker? When you people of my race (I am a white woman) when you stop mistreating negro people it will.

not be necessary for them  
to be fighting for justice,  
A white man never hesitates  
to shoot a negro for the least  
excuse but you never open your  
mouth about that. 50 years  
from now the good Lord who  
lent you this beautiful white  
body you have, He will take  
it back. Your body will  
be rotting in the grave and  
only thing you will have  
left is either a good conscience  
or the remembrance of a life  
of selfish lack of compassion  
for your fellow man. Give this  
some thought before its too late.
