

HOUSING RESOURCES COMMITTEE

July 5, 1967

Preliminary Analysis
(Of Map Showing Vacant Land Zoned for Apartments)

It should be noted that vacant land is not indicated in the Boulder Park Plan area, annexed Jan. 1, 1967. There is a great deal of vacant land in this area.

(Of this amount, that already committed to low income housing. 125 acres)

Total shown not available. . . . 278 acres
Balance which appears to be available. . . . *204 acres

However, it is very likely, when checked out in the field, that a considerable portion of this amount will be found to be not available or unsuitable (such as the 10 acre tract in L.L. 268, 17th District Fulton County which cannot be used, although zoned, because of the need for a bridge across Sandy Creek to provide access.

Balance which appears to be available (from map) *204 acres. Only 1/3, however, is likely to . 68 acres be actually available to the program.

- Additional minimum needed for actual construction of units (if re-zoned when requested and upon recommendation of Housing Resources Committee) .11497 acres

If re-zoned in advance of specific applications, three times this amount will be required, or 4491 acres.

There is no land in the large Boulder Park Plan area (1747 acres) shown zoned for apartments.

Only one tract (approx. 4 A) in Dekalb County portion of Atlanta is shown as vacant and zoned for apartments.

Only two tracts (approx. 11 A) in 11th District Formerly Fayett (where there is great deal of vacant land) is shown as vacant and zoned for apartments.

The inequitable distribution and inadequate amount of vacant land zoned for apartments, as compared with other uses, is strikingly obvious.
