

September 7, 1966

MEMO from Chief Hildebrand:

Yesterday there were 16 fire stations in operation, before the end of today there will be 19 in operation.

Total complement of personnel: 240

There have been 456 people suspended . . . approximately 100 of these are probationary people and will be handled by the Chief of the Fire Department. The remaining 356 people cited to go before the Board of Firemasters will have trials beginning the week of September 19th and continuing each day of that week (September 19th - 23rd). There will probably be more added to this list of 456 people.
