July 27, 1963

Hon. Ivan Allen Jr.  
Mayor of Atlanta  
City Hall  
Atlanta, Ga.

Dear Mayor; Since the present Administration in Washington has gone so all out for the so called Civil Rights Bill which is the worst legislation ever offered by the Government we must in '64 defeat this Administration at all cost in its bid for re-election. How any Southern White voter could back this type legislation is beyond anything I can see. The Negro may be having his year in '63 but the White man will have his year '64.

I voted for this Administration in '60 as I have always done but that is the last time I expect to vote the Democratic National Ticket on the trend they are going. Let us all get together and fight against trying to give the one-tenth of the voters in this nation everything and forgetting the other nine-tenths thereof.

In you City I have many kin people, including many first cousins, and the former Supy. of the Fulton County schools was my Mothers first cousin. I am going to write to each of these and we are going all out to get the rights of the White man restored.

Lincoln said in 1858 in Lincoln Douglas Debate at Charlestown that 'I am not now nor ever have been in favor of making the white and black races equal nor of giving the Negroes right to vote, be jurors or intermarry with the whites. That one of the races must be superior and as for me I want to assign this to the white race.

Do you recall the so called Berlin wall in Atlanta between the Whites and the Blacks? Could you tell me who was Mayor then?

Thoses that want to mix let them do so but please let us not destroy 9/10 of our good White people to try and satisfy 1/10.

The late Bishop Fuller (colored Bishop) of Atlanta Ga. who died few years back was raised in Laurens County with my Father who knew him from childhood. My Father thought a lot of Bishop Fuller who rose to establish colored churches all over the South and in Ohio. We represented them in many law suits and other matters and they always when here in Spartanburg came to our offices. Bishop Fuller wanted no part of the mixing of the races. How can anyone White or Black that has any pride in his own race want to mix it with another race. A man that says that the colored race is on an equal with the white race certainly does not know history. We must now go all out to repair the damage that has been placed on us.

Very truly  
Robert B. Paslay
