Dear Mayor -

I for one wish to
congratulate you on your
stand against this black
tide and groups of
Muslims, and Communists
that are endeavoring to and
inciting revolution and
bloodshed.

They know that they are
protected and pampered by
this wonderful govt. that
we have in this country today.
In fact we have no laws
that can cover these radicals
or any law, and order of
any description that

protects all citizens, just a
privileged few; now you
can see what the Gov. of
Alabama has had to go thru;
In your state and city you
have 2 of the most dangerous
characters in the entire world,
namely, that infamous hypocrite
Martin Luther King and that
Raeph McGill. His editorials
running in the northern news
papers are dangerous, inflaming
and hypocritical.

I am glad that you saw things
first hand, and found out that
this entire colored movement is
master minded out of Washington.
Men like you don't even begin
to know what is going on in the
large northern cities, such as

This city is loaded with colored
judges, school boards, mayors
assistants, High police assistants,
city councils, recommending 1000
colored police force do away with
white police; The public afraid
to venture out, either days or nights,
No police protection police not even
allowed to stop & question
suspicious characters, This is only
a few.

Don't let that
agitator loose
unless the justice
system forces you
which they will.
