Draw Allen Jr:

Dear Mr. Allen:

I had to close my office in Chicago after 38 years, due to the rapid influx of negroes. These negroes came up to Chicago to get some easy money in the post war period. They were in the main a pack of barbarians due to their background. Chicago has spent hundreds of millions on these people to the extent that a single family residence is now valued so high that the owners are suffering. The more they get, the more they demand. If they move into a nice property they ruin it in less than a year because they never owned anything of value where they came from and appreciate nothing.

Now we are confronted with these street riots. King should be put in jail as you have now done with Carmichael. We are not going to settle any problems of social significance by destruction of property and molotov

Jews were and are discriminated against socially all over America. I was turned away at the desk of the Graymore Hotel in Atlantic City years ago. Many corporations practice Anti-Semitism right now. That does not warrant going into the streets and screaming and murdering. I know that in 1915 none of the modern apartment buildings in Chicago wanted Jewish Tenants. So the Jews bought land and built. Not only apartments but hospitals and every other type of thing for social uplift.

What have the negro groups done? Where is their leadership? What do they build?

The law must be strictly enforced. Chicago has been too slow to see this.

These savages must be made to understand that the jails will be filled. Otherwise our society is doomed —
Don't falter now. Yours S. Malter.
