Dear Mayor Allen:

As it would be almost impossible to locate the offenders who are creating a health hazard in the vacant lot across the street from the Sheltering Arms Day Nursery at 21 1/2 Baker Street, N. W., we are, today, sending our own crews on to this lot and cleaning it up along with the sidewalk area that runs the entire length of the block.

The District Inspector will then trace down the owners of this property and advise them that it will be their responsibility from now on to keep this vacant lot in sanitary condition.

Very truly yours,

*S. W. Graydon*
