

Oklahoma City.

Dear Mayor Allen.

I want to say  
thanks to one man who had the  
spunk to stand up to this Stokely Carmichael  
It's about time some body took the  
bull by the horns and put a stop  
to him of his type. I think we  
have a lot of good negro people  
who don't appreciate this guy. and  
I feel you are really going at it  
the right way. it's so much better  
to get the ministers. and good negro  
citizens to help show this man  
just what he is.

and I do hope you men  
insist they do something in Washington  
and do it now. they should get this  
law passed and now when these trouble  
makers can't go from city to city  
creating trouble. The decent citizens need  
some right. also to live peacefully

It looks like Johnson & his administration  
are afraid to call a halt to  
such tactics. Maybe they would  
lose a few negro votes. But who  
needs that kind. Look what kind  
of world they are creating for the  
rest of us. I pray that you will  
get the job done you started to  
do. The people will be forever  
grateful to you. I had begun to wonder  
if there were any men left in  
this world who would ever try to  
stop this Stokely. My prayers are  
with you. and may the good people  
of all stand behind you. Both  
of rocks.

Sincerely  
Med A P Ashe -
