Hon. Mr. Allen:

I understand Stokely Carmichael is an immigrant to the U. S. - born in the British West Indies. If he has not become a citizen, couldn't he be deported as an undesirable alien? In any event merely publicizing the fact that he is not an American-born negro might adversely affect his picture with the American negroes.

P.S. If I had facilities for checking immigrations records, I would do so for you. I am sure it would be a simple matter for your office to have them checked.
