MEMORANDUM

To: A. P. Brindley, Parks Engineer

From: Jack C. Delius, General Manager of Parks & Recreation

I am sorry to keep piling priorities on you, but this is very rush. On a confidential basis, the Mayor has been approached by a donor interested in giving the City \$100,000.00. After wading through all the recommendations that we have made and the ~~elimination~~ elimination of Conally Street playground since it is in Model Cities, George Berry would like for us to select three ~~or~~ four playlots, determine approximately what it would cost us to buy them, and then figure up as quickly as possible some type of development, not as elaborate as the Astro-turf playgrounds in Savannah. You should check with Miss Mims as to the recommendations on the three or four playlots to be selected, being sure that none of them are in Model Cities. You should go to the Land Agent and get a rough appraisal on the value of the lots as soon as possible. You should get your staff together and make recommendations as to how these playlots should be permanently improved.

Finally, remember that the total budget for acquisition and development of all three of four playlots is \$100,000.00. I know very well that you are on many high priority items, but please give this your utmost attention.

Thank you for your assistance.
