Mayor of Atlanta
Atlanta, Georgia

Dear Mr. Mayor -

I read of the riots in Atlanta - and what it
does to the great state of Georgia.

The people of this Nation are going to keep the
United States -

It isn't going to die by war or any other way -
then renamed America - as an example to other
nations; of one that overcame death.

It is impossible to divide the States by running a
line through the United States.

If they - our enemies, do that; Oh Missouri -
then the State still has only one Supreme Court,
one Senate, one House.

A great genius gave us the idea of States. It is
going to stay. States, United States of North America
to the end. The "Lords" who would destroy the
States - are premature with "Civil" America.

(over)

The new Webster's dictionary defines
"Platonism" as follows — The ideal state
(Ch. Republic) would be an aristocracy with
three castes — artisan — soldiers — and highest
not hereditary philosopher rulers. The life
prescribed for the ruling caste is monastic to a
high degree and communitarian.

The above is "Platonism". It is not Platonism.
Plato — one of humankind's great men did not
teach politics! He taught a friendship between
persons of the opposite sex — where there is no element
of sexual desires.

Better than a command — "Thou shalt not commit
adultery." always thou shalt not. Never
what to do. Always what not to do.

It is lead; — the Punished King — and other Blacks —
wrecking on other people's property. On Wall Street,
on the Capitol Estate: on City property. In Ball Parks,
24 for 90 on.

Relaxing children in prayers — "to get mens minds"
paw belly —

I was born in Michigan — another great state.
I have been in Atlanta, on Peach Tree Street, also in
Georgia. As I said — Georgia is a great state. Of course
Texas and Wisconsin are great states, too. Put tied together
exactly. "I'm more by fortune lady than by merit." — Shakespeare
very true — about matters
