

April 27, 1966

MEMORANDUM:

To: Mr. William R. Wofford

From: Dan Sweat

I notice with great interest the adoption of the Resolution authorizing study of the 1965 Housing Act provision of Demolition of Unsound Structures.

This program offers real assistance for strong code enforcement, and coupled with the Code Enforcements Grants provisions under the same act, can be a major tool in accelerating the elimination of unsound housing.

Such programs are of major concern to this office and I will be glad to assist your department and the Planning Department in the development of a project application for the City.
