

Loganville, Ga;  
Sept. 29th. 1966.

Mayor Ivan Allen,  
Atlanta, Georgia.

Mr. Mayor:-

I have just listened to your unjust, unwarranted, hypocritical statement concerning Hon. Lester Maddox and his great political victory in the Sept. 28th. primary for the Governorship of Georgia. This was the people of Georgias victory just as Mr. Maddox indicated. I voted for him and have been working for his election all summer as our customers came to my farm for peaches and I consider your remarks an insult to the intelligence of we people, who refuse to be dominated by King, LBJ, Weltner, Little Ralph, Patterson, Hugh S. Hartsfield, Allen and other integrationist, who with the help of press and radio and TELEVISION are responsible for the disrespect for law and order in our country today, since these sources have made of themselves professional agitators trying to force conditions on these citizens, who supported and voted for Mr. Maddox that you do not honor in your own household and family relations.

We would like to see LBJ impeached, since he and his misguided henchmen are responsible for the ill will and chaos prevailing between negroes and whites today and he has finished bankrupting this country and is now well on the way to destroying its manpower in the mud holes of Viet-Nam. Guess you noticed that his popularity had declined to a mere 50%. Just for the record it has been 0 with me a long time. He will wind up next election day with his demagogues and SOCIAL EQUALS on the one side and good citizens who believe in constitutional government (not supreme court government) individual initiative and respect for individual rights on the other and we have just experienced what happens to dictatorial influences when the people speak.

Yours very truly,

John A. Cown
