The Hon Mayor Ivan Allen  
Atlanta Ga

Sir-

As I understand that before the leash law on dogs, the police would shoot dogs which were roaming the streets, and the humane society had it stopped. Now since so many dogs are roaming the streets at night with no leash, I think the police should be allowed to shoot the dogs as formerly. Also there is no evidence that dogs have been inoculated, running loose without collar or leash. I called the humane society about this matter, but I couldn't reach Mr. Newman, whom I should talk with. I don't know just who I should write this letter too, therefore I'm hoping you will please see that it get into the proper hands.
