Dear sir

I am a Baseball fan and played pro ball years ago. I admire your fine stadium I have seen it in the last year many times a credit to the city and well planned for the future. I listen each evening at the Braves games on the radio, I must say they will have to field a far better team than what they have at present to keep the fans at Atlanta and visitors coming to the games or else they soon will realize you can't fool the south people very long  
Yours a fan John Doran
