

I believe that the points raised in this letter are those which are on the minds of many of our citizens. They, as well as I, support the efforts of the Authority to provide adequate housing for our citizens. This is good, but more must be done. Physical housing must be complemented by the human element, and this is the basis of the class and my interest, and the purpose of raising these issues.

If you or the Authority are interested in discussing the content of this letter in greater detail, I shall be pleased to do so.

Sincerely yours,

William S. Jackson
Dean
