

Sept. 23, 1966

Dear Mr. Muldrew,

Several weeks ago my family and I, after hearing much about Underground Atlanta, decided to go down and see it for ourselves. We were thoroughly fascinated with what we saw. We wondered, then, at the possibilities of its being transformed into an entertainment area.

My mother sent me a copy of an article in the Atlanta Journal written by Mr. Reese Cleghorn about the Civic Design Commission's hopes for the area. I wanted to let you know that I think, if all of the Commission's ideas were carried through, Underground Atlanta would be one of the most popular places in Atlanta and probably in the South.

I am quite certain that this belief is shared
by many other people.

I hope very much that the Commission
will receive enough support and be able
to follow through with its plans.

Sincerely,

Nancy Elliott
