

Dear Mayor Allen,

May I voice the opinion of several people I know and say "Thank You" for having Stokely Carmichael arrested. Something has to be done about this man and his kind. Why does everyone seem to be afraid of these people? I hope your Courts will not back down.

We have already had too much of our freedoms taken away from us catering to them. And for what? Just to get their votes? It is Black Blackmail!

I think the best way to deal with them is to take away their welfare money. Many of them collect hundreds of dollars from welfare to support their illegitimate children, while respectable women like me who work hard, do not smoke or drink or gamble, and pay high taxes to support them get \$88.00 a month from Social Security. Every time the taxes go up there is only one place we can cut down and that is on food - and that is so high it is hard to buy a good meal anyway.

I am tired of listening to politicians in high office - from the President down - saying that it is because of the color of their skin.

I, for one, do not want any of them for neighbors, and not because of the color of their skin.

It is the way they act - the way they look and the way they live. They live like pigs - 3 and 4 families together. They hoot and holler, slam doors, gamble all night and have no morals.

My family for several generations lived in Boston. About 15 years ago I moved to Florida.

When I go back to Boston and see some of the streets that my relatives and friends lived on when I was young I cry. They talk about slums but who makes the slums? They do! They are dirty. Too lazy to carry the barrels in and out so they leave them on the sidewalk and throw the rubbish out the window. They should be made to clean up their districts. They should be made to rebuild what they destroy.

My sister, now 65 and ill, lives with my cousin 75 and very ill in a suburb of Boston. Their street was a nice Presidential street with 1 family (a few 2 family) houses. Small with 10 ft between houses, but each one had either a nice lawn or flower beds and a white picket fence and gate. The negroes got in. 2 families live next door to my sister. These two sick old ladies - too old to move from their own home - cannot get any sleep. The negroes are noisy all the time, but from Friday to Mon they never go to bed. Drinking and gambling, screaming and hooting. It is awful!

The last time I visited them I took the wrong bus and had to walk the length of the street.

It was a hot Sunday around noon. I had a suitcase  
and a heavy coat over my arm. The negroes were in  
troups screaming and hooting. Others had their  
bicycles right across the sidewalk. They would not move.

I had to walk in the street time and again. "I  
say again, "I Do Not Want Them For My Neighbors!  
Martin Luther King is a trouble-maker. Whoever gave  
him a Peace Prize should be punished.

I think that T.V. is partly responsible. They should  
ignore these leaders who are only looking for  
publicity. They live high, taking from their poor followers.

On a recent meet the Press program both  
Stokely Carmichael and James Meredith were a  
disgrace to any race the way they talked.  
And the money Meredith was paid by Life Magazine!  
I saw each of them on the Mike Douglas Show.  
Insulting as usual!

And the money they pay Dick Gregory and  
Godfrey Cambridge to stand up there and  
ridicule us and insult us.

All this should be stopped. — Any show that  
allows it should be banned. Some of them have  
talent — but the sick comics and the screaming apes

They should first return to respect "Law and Order" (4)  
which they will never do easily - they must be made to.  
On a recent Huntley-Brinkley newscast one of them said  
that in order to wear \$200.<sup>00</sup> silk suits they would do  
anything - sell dope - bolita or numbers - or rob.  
The other one said if he wants children he doesn't  
care if a woman is married or not. Do we want  
these people for neighbors? Not me!  
I think by far the most disgusting of these  
T.V. programs was on Huntley-Brinkley the night  
before the Voting Bill was signed.

One man stood there and ridiculed the president  
and all his bathrooms, while Martin Luther King  
stood there smiling approval. The next morning  
they were all at the White House and received  
pens after the signing. What a mockery!  
How low can a President stoop for votes?

Please see this thing through. And maybe you  
and all the other mayors can get together with  
a plan to refuse Welfare to anyone who takes part  
in a riot or disturbance particularly interference  
with the police doing their duty.

Thank You  
Mrs Margaret Burkard
