## MEMORANDUM

TO: Johnny Robinson  
FROM: Dan Sweat *[Handwritten initials]*

It has been suggested to me that six day care centers have been opened under the Model Cities Program with professional staffs; but that because they have no equipment there are no children being served. I expect this is a rumor, but I would like for you to personally take a look at any day care centers which are operating and see what the situation is as soon as possible.

DESJr:sm

Dan -  
Rumor only. There are the three Senior Citizens day care centers, two funded for \$400,000. and one for \$70,000. These are not fully implemented as all repairs to space to be utilized have not been completed.
