You do not represent the people of this city in your bid for recognition by the Kennedy's in Washington last week. Why do you talk out of both sides of your mouth? You are the weakest thing we have ever had as Mayor and the majority of the people were incensed at your sneaking approach and bid for personal glory in siding strangely against your own city and State, when in sight of bigger glory.

Why don't you give up. I am just one of the tax payers, and a registered voter, and I am in the minority group of the forgotten White Race. Where do you belong?

I have no feeling for a luke warm person, and believe the bible says to spit it out of your mouth, the luke warm, for you are either hot or cold...ina leadership position.

Who ever said you were a leader. You should go back to your sales job.
