Mayor Ivan Allen,
Atlanta, Ga.

Frankly I've never considered you a big man,
but when I heard, this morning what you had to say
about the Governor nominate this morning, you really
convinced me just how small you are. There are a
lot of smart men, but many of them are just like

Ellis Arnall and you - you are a smart D.foole.

To many of us the City of Atlanta is in worse fix
with you as mayor, than Georgia would be with

Maddox as Governor. However, it is such Democrats
as you that is going make Georgia elect a Republican
Governor in November, to my notion.

A decent man would allow a good citizen the
same respect that you show some sorry niggers.

Wake up man! you, Ralph McGill and a few others
like you can't change Georgia. your hats don't set on your
heads right.

Be a good democrat and accept the verdict of the majority. I think what makes you so sore is the fact that a lot of the ignorant negroes there in Atlanta that put you in office voted for Mr. Maddox, which you didn't expect.

If it will cheer you up any, remember that a lot of people like yourself have run so many democrats out of the party, that Callaway will be our next Governor. Too many are like yourself and your jack leg Congressman, and Rudin Johnson, that would go maimed through life for the negro vote. Your congressman admits that 10% of the whites + the negro vote in Atlanta will keep a man in office. If you were put in by the negroes, I don't blame them for feeling that they had the right to knock you off that truck.
