Dear Mayor Allen:

We are all so proud

of you and thank ful for

you - You have brought national

attention to our city - to

say nothing of yourself -

of the most favorable type -

I wept when I saw you

shaken off the truck in

front of the school (then

Key - now Capital Ave)

day night - where I served
principal The last five
years it was a white school.
neighborhood then, in
transition, was a very troubled
me and we could not have
carried on then without the
strong help of the city govern-
ment, in particular the
Police Dept. So I know what
you have in Chief Jenkins
and his force - But we have
not had in my thirty-
five years of residence in

Atlanta had a mayor even
remotely ^{pardon} approaching you
in sheer courage and skillful
leadership and great personal
integrity -

How do you wonderful parents,
slightly, as I see them oc-
casionally at Sea Island
and thought of them with
profound concern as I saw
you throw your own life
before the forces of evil to set
an example for all of us to
follow for the sake of our city.

sh Miss Mary Adamson were
me to be proud, with all of
of her day - The teachers
el that intense love and
side to a degree difficult
to explain, for our days and
girls - Ann Montgomery
Moses is one in which I

feel this pride -
My daughter called this morning
from her home in NYC - to tell me
that the conservative NY Times had
praised you -

Take care of yourself -
Sincerely

I am coming
by to see
you before long
for one
minute!
