MEMORANDUM

To: Mayor Ivan Allen, Jr.

From: Dan Sweat

Attached is a memo which I requested Jim Parham to write giving us the facts on the Neighborhood Youth Corps Out of School Program.

I became very concerned about the cuts we have received when I heard that Chicago had received 15,000 additional NYC slots for the summer. I will have more definite information on the Chicago slots by Wednesday morning.

If this is true I think we should make a big complaint with someone high in the U. S. Department of Labor. The NYC program has been one of our best programs for getting young people employed. We should not be penalized for our success in Atlanta.

I plan to talk to some of my contacts in the Labor Department when I am in Washington Wednesday afternoon.
