pg. 2 of 6

23. Relation to other Economic Opportunity Programs

How will the activities of the proposed project be coordinated with the community action program?

The purpose of the proposed Vista project is to provide a reliable source of information on the various programs having to do with the proposed Model Neighborhood Program in Atlanta. There exists now much confusion and anxiety about the possibilities of the program and also interest in exploring the potentialities. Citizens groups in the area have requested use of Vista volunteers to act as Information Aides, to serve the civic groups which need to be kept current on developments so as to plan intelligently and independently for their participation.

The Volunteers will work under the supervision of the Director of the Community Relations Commission, assigned to civic organizations in the area and physically located in the area. This Commission has no professional staff or volunteers engaged in this work. The Volunteers will have opportunity through their contacts and work with local people to make suggestions about the developments of the Model Neighborhood Program

This request is to reassign two (2) of the Volunteers already working under EOA to this project, so much of the information requested would not be applicable.
