President John F. Kennedy  
White House  
Washington, D. C.

Dear Mr. President:

The May 27th issue of U. S. NEWS AND WORLD REPORT published several articles on the Negro question. This fine publication has consistently told the truth about this terrible problem. In a previous issue it uncovered the terrible conditions in Washington, D. C. brought on by integration — a condition for which our nation should "hide its face in shame."

The Negro mess was started more or less by Franklin Roosevelt and his wife. It is unfortunate that such so-called learned people would be so short-sighted, particularly considering that they both came from Eastern United States and he was educated right where slavery was promoted and flourished. This also applies to the Kennedy family.

History shows that one shipment of slaves was brought to Virginia when it was a colony. After that Boston was the chief port of entry with New York running a close second.

Slave traders sold slaves to planters in the South. The North was not a good market due to climate, although a lot of slaves were sold in the North. The South was sparsely populated — the plantations were very large — so the availability of negro laborers who were accustomed to a hot climate was most encouraging. It is unfortunate that our white forebears did not realize just how much damage the Negro would do to the South and to the entire country.

Some enterprising people brought mongoose into Hawaii a few years ago, supposedly to kill rats, but now the mongoose is a bigger nuisance than the rats were. Surely bringing Negroes into this country is a parallel case. Their definite plan is to take over everything with the thought of creating a new and inferior race of people within the foreseeable future. A Negro will probably be president of the United States in your lifetime, particularly with the support given them by you, your brother Bob, and others. It is too bad that we don't have men like Teddy Roosevelt and Woodrow Wilson, really dedicated Americans, with brains, "guts" and common sense.

The situation in Washington, D. C. is a disgrace. If you, your brother, Congress and the infamous Supreme Court continue as in the past, the entire country will be unfit for decent habitation. Our schools have already deteriorated to such a degree that a great many children are not getting correct training. A great many schools in the North are "breeding spots" for rapists and communists. At a recent national meeting of the D.A.R. in Washington the D. C. Police Chief got out a bulletin to each lady attending, advising that not one of them should go out after dark -- should not go out even in daytime except in large groups -- and should not get in a taxi-cab operated by a Negro. Miserable politicians, starting with "The Great White Father", F.D.R., are responsible for this condition and why can't you be wise enough to do something about it? So, why not strive to do something constructive for your country instead of tearing it down? Your family political aspirations may make you rather infamous.

When I was about eleven years old (1909) I overheard my father talking to a friend. His name was Major Frederick Palmer, a West Pointer, who spent a lot of time in the orient and was in the Spanish-American war. He evidently knew a lot about colored people; that is, Japanese, Chinese, Filipinos and Negroes. Major Palmer made this statement to my father: "One of these days the colored race will subjugate the white race." Fifty-four years have passed since I heard that remark. The Japanese tried it at Pearl Harbor, and if they had followed through correctly, we would have been in trouble. The next time they, with the Chinese, may not fail for they will have our Negroes to support them. Don't think for one minute that the Negroes won't support the yellow and brown people. They will and it could happen in your lifetime.

Meredith, the Negro supported financially by the N.A.A.C.P. (probably the greatest money-making racket of the century) was planted into the University of Mississippi with the support of the Federal Government and the Supreme Court at terrific expense. Meredith was a disgrace to his race on Meet the Press on May 26th. What has been gained? Nothing, for white people all over the nation now have less compassion for Negroes. Negroes are proceeding with your sanction on a hate basis. They mean to be on the same level with white people at any cost and will ruin our country.

Negro children are allowed to stay out of school to parade and disrupt normal procedures and then allowed to return to school without punishment. If white children did anything of that sort they would be expelled. Negroes are getting by with too much and will gradually destroy our schools and everything else. White children are taking a belligerent attitude, feeling that our miserable leaders are favoring Negroes to the detriment of the Whites. It has been definitely proved biologically that Negroes cannot match whites and are inferior on an average mentally, morally and physically. If you placed white children with wild animals or rattlesnakes they wouldn't do too well. The same applies to Negroes. They are just about as aboriginal as those still in Africa, except in rare cases.

White people should rise up and demand reverse action on the part of the Supreme Court or demand complete impeachment, including you and your brother. It is ironical that Black, of the Supreme Court, was a Ku-Klux Klan member until his appointment by the "mighty" Roosevelt. Now, he is on the Negro's side. He won't be alive much longer and doesn't care what becomes of our country. Warren and the rest of the Supreme Court are weaklings too. So, our country is really in a mess! It is a disgrace that hardly anyone, except Negroes, have any respect for our Supreme Court or our Government. How can they when you consider the Negro problem and the Cuban situation? One hundred thousand Cubans were allowed to come into Florida and with about a million Puerto Ricans already here, mix with the Negroes and cause a situation in the United States that makes every white person -- North, South, East and West -- sick at the stomach. Is it possible that the Catholic Church was responsible for the Cuban situation to further the Catholic cause and in time get more power in the United States? Think all of this over and see if you can't do at least one constructive thing for our country.

The South is absolutely not responsible for the Negro mess. The politicians and certain unscrupulous newsmongers are the cause of it all. The South is burdened with about 30 per cent Negro population. Certain Northern areas are getting a taste of it, but blaming everything on the South. It is easy for politicians and certain Northern people to tell the South how to "reform", but subject those same people to contacts with Negroes and they "wilt like a wet dish rag."

By the way, if certain of your demands are met in the South, would you guarantee that all Kennedy children are immediately placed in integrated schools in Washington, D. C.? Also, all children and grandchildren of Senators and Congressmen? Will you guarantee that white people who have moved from Washington, D. C. be forced to move back and live closer to Negroes?

Mr. President, you know what I mean, but I will wager that you will laugh at the whole idea. Your children won't have to go into public swimming pools, eating places, etc., where Negroes will spread disease, disorder and chaos, tear down breeding, culture, intelligence, etc. Don't you realize that white people all over our country won't put up with it any more than your family will? Don't be a hypocrit! I have respect for your position, but God help our country if something is not done to curb ambitious Negroes. Why should an inferior minority group be allowed to take over? Senator Russell certainly has the right idea.

Get the cobwebs out of your mind, man, and do some real thinking instead of politicking. I am sorry I must write you. I could be more impressive in person.

Respectfully,

  
Jack Rushin
