

Mr. Mayor,

Oct. 10, 1966

Enclosed are two bumper stickers which express the feeling's of the "BROAD MINDED PEOPLE OF GEORGIA". The future of Georgia, and the United States of America lies in the hand's of this type government, government by the people, and for the people for whom it ~~was~~ established for.

The majority has spoken. But the so called Leaders turn their backs on the party's selection. They had rather go fishing than support the people's choice for governor, or for any one else running for a public office.

These stickers can be obtained this organization.
