## MEMORANDUM

TO: Finance Committee

FROM: Charles L. Davis *CLD*

I am enclosing a copy of a Summer Recreation Program which has been developed jointly by the Parks Department, School Department, and others. This application has been approved by the Grant Review Board and has been submitted to EOA for funding.

You will note in your review of the program that the total program amounts to \$1,826,469 with \$487,690 being made up of non-cash grants-in-aid which are being furnished by the city and/or the Atlanta Board of Education. Funds for most of the items have already been appropriated, and there will be little additional need to undertake the program if the federal government allocates their \$1,338,779 through EOA.

Correspondence and discussions with Mr. Delius indicate that the total available funds from EOA for the entire metropolitan region will amount to \$590,000 which indicates that the program must be considerably curtailed if it is to be kept within the present appropriations.

We should have an answer from EOA very shortly so a decision may be made as to the funding of this program.

I am also enclosing a copy of a letter dated April 21, 1968, to Mayor Allen from Mr. Delius regarding the summer program for your further information.
