

AN INCENTIVE TO A BETTER JUDGEMENT IN THE AFFAIRS OF MAN  
By Mrs. T. Haesle

There are things beyond the little minds of men and Nations. There are things that can be settled only by the conscience, under God -- the spiritual -- to which men and nations have grown so indifferent today.

Imposed dictators, pressure groups, specific minority groups, have made great inroads through false ideas and force, which ends in tyranny. This has kept the world in turmoil, hate and bitterness through the ages.

Who is man or men to lead thus? The basic law of all, the Ten Commandments of God, is the supreme law. The action of all people, regardless of their personal ideas of right and wrong, hang in the balance until the Divine law has been applied.

Am I right or am I wrong? Summed up: It isn't what you or I think that matters. It's what God wants us to do. That alone should guide our decisions.

P.S. With God everything works together for good. Without God the devil subdues and conquers over all.
