Dear Dave:

Thank you for your inquiry about the Urban Corps.

I would like to suggest that the best approach might be for you to step across the street to the Municipal Auditorium and talk to Sam Williams or some of the other young people involved in setting the Urban Corps up. I am sure that they would appreciate you discussing it with them and giving them any ideas you might have.

I would certainly be interested in discussing personnel procedures and practices of the City of Atlanta with you and will look for a call when you want to get together.

Sincerely yours,

Dan Sweat
