

San Francisco, Calif.,

Monday, Sept. 12, 1966.

Mayor
Ivan Allen, Jr.,
City Hall,
Atlanta, Ga.

Mayor Allen:

Just what are you trying to prove by dashing into the forefront of each riot in Atlanta?

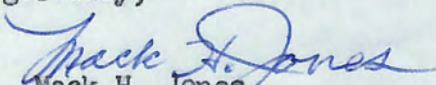

Are you reaching for personal publicity or are you trying to create an impression of being a "Fearless Fosdick?". A one man riot stopper?

Whatever you have in mind is doing terrific damage to the white people of our country and most especially to the Southern whites! With your theatrical clowning and silly attempts at heroism you are subjecting white people to every type of ridicule imaginable!

You should do one of two things: Stick your head into the sand like an ostrich or continue your love play with your beloved niggers!

White people know you for what you are! No use of you trying to change your spots. Even the niggers recognize you for what you are.

Disgustedly,
