URBAN REDEVELOPMENT PROTECTS THE FUTURE OF YOUR INVESTMENT

In any Urban Redevelopment Area, no proposal can receive consideration that contemplates an unpermitted use. This assures good neighbors and permanence of values. All proposals must include a statement by the redeveloper showing financial responsibility and capability to successfully complete the proposed improvements set forth in preliminary drawings and a narrative description. These are carefully considered before a determination is made as to which proposal is to be accepted. The Agency will accept such proposal, if any, as it deems to be in the public interest and in furtherance of the purposes of the Georgia Redevelopment Law; however, no proposal for purchase at a price less than the established minimum price will be considered. In evaluating the proposals, the Agency will consider the proposed price to be paid for the land; the compatibility of the proposed development to other existing and planned improvements in the area; the excellence of the proposed design and the quality of the overall planning of the proposed development; and the size of the proposed development, particularly as it relates to effect on the tax digest. These tracts are in a protected area - this is fundamental to the whole basic concept of Urban Redevelopment.
