POLITICAL SOCIAL SCIENCE

Government is to rule by right of authority, but in all cases that authority, must spring from the people. For people as a whole cannot rule themselves as a body. But from such a body springs the ^(elected) selected, who will be vested, with power such as may be agreed upon Constitutionally. In ancient times powerful citizens seized this power, through which they set-up Kingdoms. The world has been retarded in civilization, impoverished, and laid waste by wars of the personal ambitions of its kings. Through the powers of the kings privy council, with its control over its legislature. People, of today's world, are being pushed around by its substitute (Democracy) a form of "Congressional-Government", that rules people instead of serving them. Today, as each Kingdoms are overthrown no new ones are instituted, hence our modern and most important governments remains: pure Republics. A true Republic is one that evolves from agreement or compact, put in writing and ratified. (Constitution). The United States of America, was the most unique, and solely, only one, so situated with its present Fifty-States; now so badly misguided through strange: maneuvering. Once a Constitutional-Republic has been established, it so becomes susceptible to jealousy, that in due time develops a resentful... and most envious desire, among other Nation^S too seek destruction of, its uniqueness and prosperousness: as a Republic. Such as our, beautiful United States once was... but now it has been given back to England and her system of parliamentary government. This now has been so accomplished; leaving our people to suffer as the lunatics we have been, still are, for being seduced, by foreign emissaries, to throw away our heritage. Into outstretched hands of foreign and domestic bankers. For what? security for all Republics, will only be found in the INDIVIDUAL COMMON MAN, destroy individuality of character; destruction of such REPUBLICS: follows. Rules and maxims, that cement to make good governments... must follow in paths of its written compact; deviation destroys all. Proverbially down-drain, surely we all will converge. As a price we pay for our stupidity, security, can only be retained, through our individual-love; of country. Plus tranquility of Independence, and serendipity of three separate branches of government, to live under Congressional-Government, is to be RULED, not governed. What an individual can lawfully do, so only

THE ATTORNEY GENERAL OF THE UNITED STATES IS NOT AUTHORIZED BY LAW CREATING AND DEFINING HIS OFFICE? TO GIVE LEGAL OPINIONS AT THE CALL OF CONGRESS. HIS DUTY TO RENDER SUCH OPINIONS IS LIMITED TO CALLS FROM THE PRESIDENT AND THE HEADS OF DEPARTMENTS... Duty of Attorney General, 15 Op. Att.-Gen., 475, (1878) cases; I Kent, 306 R.S. # 58. HE MANAGES GOVERNMENT SUITS BEFORE THE SUPREME COURT. HIS OPINIONS ARE PRESERVED IN A SERIES OF REPORTS KNOWN AS THE OPINIONS OF THE ATTORNEYS' general which includes decisions rendered from 1791 to date. THE ATTORNEY GENERAL OF A STATE ADVISES THE GOVERNOR? AND EXHIBITS INFORMATION IN THE NAME OF THE STATE.

No nation functioning under a constitutional government, can remain certain that such a government, will not be slipped off, through collectives that gain political powers in numbers, to put into office, as heads of government who are subversively inclined. It happened here in our country, in 1912 - running into 1913-1921, and again in Germany in 1932, when the way was opened to establish HITLER in 1934. These points are history, and is available for research. The election in saigon, gives no assurances that buddhist activists, will not take steps at the slightest provocation, to totter that settlement, and change it into something more acceptable to asiatics... who has a better right.

Very sincerely

can, a group of them do. However, a political association, formalized in powerful numbers can, overthrow any government, where its people are asleep. Its only true hope, is timely opposition, to frustrate, such unconstitutional thrusts of subversion. Bankers, and loose currency, are tools serving the few that have loads of it. Resulting in they, getting cream they skim off milk of unsuspecting: Nations. Unrest in any country was never actually known, until groups, cabals, and cliches and/or what have we, developed from following unscrupulous thinkers, out too steal even the eye-balls, of watchful guards which no nation can place complete dependence. CONGRESSIONAL GOVERNMENT, being what it is, a collusion,

between our justice department, our executive branch, and finally our congress. This is so truly unamerican per se, and places our whole government into spheres that should be investigated. Its a case of res ipsa loquitur. Mind of man can only be known by its outward manifestations... language spoken, and conduct. As these conform to the practice of the majority of mankind, or man's soundness of mind. Judgment is formed as to his soul, and his consciousness. William C.
