Dear Sir: This letter's 3 unknown objectives, since we are unbeknownst to each other.  
Firstly - Why does Atlanta want a BIG League ball club-building an 18 million buck stadium Atlanta can't be THAT big. (last time I visited it was about 250,000 - mostly poor people)  
Secondly - do you know that baseball is fast becoming Nigerified - with many overpaid nigs wanting to live in the same house with you all.  
Thirdly - baseball aint what it used to be for about a billion reasons, besides becoming LOCAL because of over-expansion.

Yours truly
