

CP
Minneapolis, Minn.,
June 22, 1967.

Dear Mayor Allen,

These riots in Atlanta and other places can be blamed on our top politicians who have made negroes think they are going to mix socially with whites, and that we will all become one common race.

This the negroes are going to have, or else. The riots, arson, and lootings are the "or else."

The only way to put an end to the activities of these tribes people is for Johnson to come out on television and tell these blacks that white people simply will not, and cannot accept them socially. After that sinks in, the Africans can come out of their dream world and go back to living with their own kind. Both races will be better off.

And incidentally, throwing money at negroes is not going to by-pass a hundred thousand years of evolution.

Yours very truly,
Elsa Lewis.
