Loganville, Ga;  
Oct. 4th. 1966.

Private Citizen, Chas. Shortsighted Weltner,  
Atlanta, Georgia.

Dear Sir:-

We think your withdrawal from the Congressional race was the best news we people, who elected Hon. Lester Maddox have heard since Mr. Maddox won the run-off in the primary to represent we people in the Governors seat of our state.

People here generally are in disagreement with you and the fact that you voted for the cantankerous civil rights bill, they knew you won your seat in Congress originally by and thru the negre vote wich you admitted, too we know you replaced one of the most outstanding Congressmen Georgia has ever produced in conservative Davis, who fought for a balanced budget and proposed legislation to pay one billion dollars on the national debt which would have staved off inflation that is now a reality.

We are confident that you shve been assured by LBJ that you will be taken care of, since you have been right under his shirt-tail ever since you went to Washington.

Congratulations on your decision to get out. We are going to stick by Hon. Lester Maddox and show you, Ivan, Little Ralph, Hartfelt, Patter-son, Spalding, Big Lip Zing, The Television, its Fermentaters and Press how intolerant the big bosses can be. It was the height of intolerance for the Atlanta Journal and Constitution to editorially try to inject themselves into the run-off on the last days, telling the people why they believed we people should follow their lead in supporting Ellis Arnold and reject Hon. Lester Maddox, a man, who was unduly chagrined and chastized by the government he supported with his tax dollars, because he would'nt. bow to the Almighty LBJ and unconstitutional laws and decisions of 9 men for whom we have no respect.

What is Happening? CHACS instigated by a bigot trying to complete the bankrupting of this country to passify the poor and afflicted all over God's world while he piles up his millions and the rich get richer and the poor get poorer, individual initiative is cast overboard and the Great Society pledges itself to ROCKING CHAIR SECURITY FROM THE CHADLE TO THE GRAVE.

Can you picture a Government so stupid that it pays subsidy payments on cotton that wasn't even planted when its national debt is approx imately 325 billions of dollars and our boys are dieing for a lost cause? You stated today "You believed LBJ would go down in history as one of our great Presidents." Unless we miss our guess he will go down in history as its greatest spendthrift, disorganizer and dictator promoting discord and bad relations in our citizenry, trying to force on good citizens his Social Equal theory, that he nor his steoges naméd above accept on an equal basis for themselves, or their sons and daughters.

Thank you again for getting out of the Congressional race, in view of a rainbow with LBJ and his Social Equal Society.

Yours very truly,

*John A. Cown*
