

Everyone hopes that you will not only try the Treasonable Red Riots inciter Stokely Carmichael for Arson and Treason but that you asses fines against his organization, for that is one thing that the Communist Whites who are backing these riots cannot stand.

While it is hard on the White All American citizens of Atlanta for a time, it is the thing that has to be done by someone and the sooner it comes to a head and we start using gunfire to start arson and pillage, the sooner the country return again to be America.

Just remember to where there a few back Communists trying to pull down our Government, there are millions of whites who feel afraid to speak out as long we have the Welfare State Administration in Washington.

We hope that you have the backbone needed to carry on.

GOOD LUCK

HOPE KC can equal you.

Mr Mayor:

All the White Americans are
solidly behind you all the WAY.

When the Press screams that
"The Image of Atlanta--
and Possibly More---Hurt by
Recent Riot" they are lying
and they know it for every
firm in USA would prefer a
strong town that will fight
for Law & Order, rather than
a town that is governed by
the Black Communists as many are.
