

Sept. 29-66

Mayor Ivan Allen
Atlanta - Ga.

Dear Sir:

Upon viewing your speech on T. V. following the nomination of Lester Maddox, I must comment. Your speech was sickening and utterly disgusting, who are you to criticize the people's choice. We are sick to our stomachs, of you crazy Liberals. You have indeed ended a short, lawless damaging reign to our Society. You guys are on your way out. You have pushed our people back against a wall, given in to communists let them really have their day, the world over. Fifteen Countries have gone down to these demons, while you

pet and pamper, and refuse to stand your ground. You are the poor-weak spineless jelly fish, who gave a banquet in the past to honor Communist trained Martin Luther King, a man who has become one of the richest negroes in America during the past ten years, and who has organized more than sixty Communist front organizations. You honored him, you stupid man, then they turned on you, and threw rocks at you. I told my husband that you would eat crow before you died, and you'll probably be served another course.

I prayed for Lester Maddox to win, and win next time. You should apologise to that fine Christian man, whom God has chosen to lead your people back to sanity. He

believes as our ancestors believed, and as the Great Abe Lincoln believe. Lincoln said "If we are to live together in this country, and live in peace, we must remain apart socially."

L.B.J. thought he would outsmart the great Lincoln, and tried to reverse that decision, and it backfired in his face.

The people are fighting back, while the chains remain un-locked around their ankles.

Lincoln told the negro to go on alone and make his way in life. Now these crazy Liberals are telling him that he cannot learn anything in school unless he is sitting next to a white child. They are re-tying the bonds that Lincoln severed. And you call that sanity, and think you have the right to Criticize a man who has the courage to stand up before his God and fight these evil people

4 -
that have taken his property,
caused him physical and
mental anguish, and brought
him to his knees. My hat
is off to this fine man, and
to George Wallace. We were in
Alabama last month on vacation
From here to Indiana, to Mobile
and return, we encountered high
praise for Wallace. He has seventy
seven million dollars in the
Alabama reserve, he is like a
busy squirrel in the summertime
storing up for the winter. He
came up from poverty, and once
had to live in a chicken house
with his wife and baby, while
working his way through college.
God is sending us these men to
guide us to our destiny. This country
will not be saved from a communist
take over by men like you.
It will have to be done by more
courageous, brainy men, and
you my friend, are not half
the man Lester Maddox is.

Sincerely yours
Mrs. Evelyn Shauler
Beverly Hills - Calif
