The Honorable Mayor Allen Jr.  
Mayor of the City of  
Atlanta  
Atlanta, Georgia

My dear Mayor Allen:

After reading my newspaper the other night, about the trouble there in Atlanta with the niggers, I want to tell you what I think about these demonstrations in cities all over the U.S.A. They should not receive a permit to march in any city. If I were a Mayor of any city, I would never give them a permit to march or have any demonstrations of any kind. The time to stop it is at the beginning. Don't allow any marches at all. Also, I would like to suggest that anyone caught being in, or having any part in a demonstration of this kind, if such person is found to be on the welfare roll, and receiving a welfare check, have the department to cut all relief to this person forever afterwards. Why? Because it's just not right for a person to pay taxes to support any person that demonstrates against anyone, or the State Government; and that is actually what they are doing.

In these marches, there is one man that could stop all marches and demonstrations in the future; if he would! That man is the President of the United States. If he would go on television one hour and state that they have to be stopped, and now, or he will order troops to stop it. He could also give all states the power to put a stop to it at any price. But, he will not do that because he is now so obligated to them and their Civil Rights Bill.

The main thing we need in 1968 is a complete change of government heads in Washington. But, can we white people stand all these troubles until then? At least it's now time for the white race to fight back in every way possible.

Just to let you know who I am, I am white, a former resident of Fitzgerald, Georgia, and was born at Birmingham,

Alabama. I have written to Governor George Wallace of Alabama, and received very nice answers to every letter I wrote him. I am now retired, age 67, and I do visit my old home state of Georgia every year. My wife is also from Georgia. I hope to go down there in October or November. Perhaps I can stay on the main highways and avoid having bricks and bottles thrown through my car windows. I hope it never happens, because I judge a brick to be a deadly weapon; therefore, I'd have to protect my wife and self against these tactics. I know the police and all other officers are going to have to learn how, and have the right to shoot, if attacked when making an arrest. No person should have the right to interfere with an officer when making an arrest. Any person, or group of people doing so should be given punishment to the fullest extent of the law. We white people know we are superior to the Negro race and lets keep it that way.

Thanks for taking time to read my letter.

Yours truly,

Alver P. Jones
