Mayor Ivan Allen  
City Hall  
Atlanta, Georgia 30303

Dear Mister Mayor:

I had hoped to be among the first to express appreciation to you for your leadership in our time of stress. The Vice President and many others have been ahead of me, but I still want you to know how I feel.

Your courage and your decisiveness epitomize the best qualities we seek in civic leadership. Typical of your entire public career is the manner in which you faced our problems head-on this week. I recall your similar quick action when our community witnessed a tragic accident in Paris. You have a remarkable talent for moving into the center of problems rather than waiting for them to go away. I like this quality in you.

Our town is fortunate to have you as its spokesman and leader. You deserve the fullest backing possible and the gratitude of every good citizen of our community. You have both my thanks and my support. It's a personal comfort to know you're "in charge."

God bless you.

David Goldwasser
